

AOHNP (UK) 16th ANNUAL RUTH ALSTON MEMORIAL LECTURE

Evening of Tuesday, 9 March 2010
in the

Pavilion Suite, Hilton Birmingham Metropole Hotel,
National Exhibition Centre, Birmingham B40 1PP

'The Future of Occupational Health Nursing'

by Dame Christine Beasley, DBE

Chief Nursing Officer, England

This will be followed by a debate:

**"What is more important, the effect of health on work
or work on health"**

Christina Butterworth will debate that the affect of work on health is more important than health on work and ask Dame Christine to give the alternate viewpoint. The main premise for the debate is that though occupational health nurses use their core nursing skills in the workplace they form a very small part of the skill set required to be a competent occupational health nurse, which is poorly recognised by the Department of Health and our nursing colleagues in more traditional nursing roles. The debate will then be opened to the floor for some more interesting viewpoints and a consensus.

EVENT FEES - includes reception and dinner

Members : £40 / Non-members : £65
